

LIQUID FERTILISER ENZYME ADDITIVE WITH ZINC COFACTOR

ACTIVE INGREDIENTS:

Lipase >80 μ U/mL

Mannanase >5.6 U/mL

NUTRIENTS:

Potassium as acetate 8.0%

Zinc as Potassium EDTA 8.7%

Liquid enzyme additive that enhances nutrient availability and acquisition by plant roots and soil microbes to improve soil and plant health, growth and yield. Performance further improved by the addition of zinc cofactor.
